Engineered privacy, made easy.

Join companies that have easily encoded privacy across their tech stack. From Europe's **GDPR to Facebook's LDU** protocol, and beyond.

Solving privacy for every team, and every need.

With diverse laws and mountains of data, today's privacy work is a shared responsibility across teams. Bridge the divide between engineering, legal, and security teams with one powerful, easy-to-use platform that meets their needs and frees up resources for everyone.

For engineering

*

download.

D,

Patreon.

Lightweight, prepackaged code that hooks up quickly with any data system for fully automated privacy workflows you can set and forget.

For legal

Complete coverage, less costs, and future-proofed compliance built for today's and tomorrow's laws, with full auditability.

For security

Secure by design with industryleading protocols like single sign-on and end-to-end encryption - to reduce your breach risk, not add to it.

Trusted by leading brands to meet regulatory obligations and exceed user expectations.

Robinhood 🌈

INDIEGOGO.

eventbrite

A unified privacy platform engineered to automate away your pains and put your users first.

Transcend Privacy Requests

Cut processing requests by 80% with a fully automated, easy-to-use operating system for privacy request compliance. From access to deletion, from user authentication to data return, leveraging 1,300+ pre-built connectors. Built to be secure by design.

Transcend Consent

The faster, smarter way to get user consent. A lightweight, 30KB bundle that covers all 200+ tracking technologies, without slowing down your site or breaking existing elements.

Better consent management in less than 5 minutes.

Data Mapping for ROPA

Always-on visibility, reduced risk. Through a 30 second, auto-assist site scan and connected data systems in your Transcend platform, Transcend auto-populates the 4 GDPR required fields.

All Records Joint Controllers	Third Countries / Orgs			
Q, Search systems			Filter Add Data Record	Retention Schedule
PERSONAL DATA CATEGORY	USED FOR	INDIVIDUAL CATEGORIES	OWNER	Stated Period
Fmanclal	Advertising	Registered User	Multiple Owners	Is less than Hours
IP Address and Device IDs	Marketing	Guest User	Jaylon	G 4
Computer Information	Unspecified	GuestUser	Paityn	Limited
Houitty	Analytics / Ressarch	Registered User	Alfredo	Other
Social Media Data	Merger / Acquisition	Guest User	Tiana	
Location	Other	Registered User	Multiple Owners	
Skervey Data	Marketing	Guest User	Aspen	

C We needed a strong data privacy partner that could immediately add value and that could keep up with our expansion, with the right stack to meet our needs as we grow. Transcend has helped us get a handle on several important aspects of privacy engineering so we can solve things the right way for our community. **J**

Taylor Hughes Trust and Safety Engineer, Clubhouse
